### 1989 Midwest Backgammon Championships

A record crowd (141) enjoyed a well run tournament by Bill Davis and staff. \$1500 was raised for the Anti-Cruelty Society of Chicago. Players also competed in the unique events of Pig Rolling, Liar's Dice, BG Pinball and Backgammon "Rainman". A real positive sign was the strong showing (32 players) in the limited division for these players are the future of backgammon. Everyone was presented a lottery ticket upon registration and Mary Ann Meese hit 4 of 6 numbers for her share of the then record payout. Next year's tournament is scheduled for March 23-25.

### WORLD CUP Match

### Joe Sylvester vs Alan Steffen

37 Point SemiFinal

During 1989, this match will be presented in its entirety in this newsletter, 1 to 4 games each month. This month games 12 and 13 are on the next page. Along with the 34 games, all the doubling positions will be presented. There are some both interesting and exciting games in this match between two of the best. An errors were found in Game 11 and is presented correctly here.

Instructions: You will need a backgammon board to follow along. The board is numbered 1 to 24 with all points numbered based on the view of the player on roll. The home portion of the board is numbered 1-6. Bearing off is denoted as moving to the 0 'zero' point. Each player will always be moving from a higher to lower point with only the point(s) moved to used. To make it easier to follow, the larger number rolled is denoted first. In some situations where the smaller number rolled is forced, it will be presented first. An example: being on the BAR with a roll of 52 and the 5-point make and the 2-point open.

Abbreviations used are CB - Closed Board, EF - Entry Failure, NP - No Play Possible, x - opponents piece was hit,  $5^2$  - superscribe denotes 2 or pieces moving to the same point; this example has 2 pieces moving to the 5 point. In the doubling positions, Joe will be 'X' and Alan 'O' and are shown from Joe Sylvester's side of the board. Study those first before going through the games.
